Creating a theme helps you narrow down and focus on one area of your personal and/or professional life in which you want to see growth.

Self-Inventory

- What Behavior do you want to change? ie. Write more books, gain new clients, make new friends.
- Quantity? How much of an increase do you want to see?ie. I want to write 3 books, I want 12 new clients. I want to make 5 new friends.
- Time: What's your deadline? ie. I will write one book every quarter. Every quarter I will secure one new client a month.
- What Resources do you need to get your goal accomplished? ie. A writing schedule, a customer loyalty program, join a meet up club.

Responses

A goal needs to be specific (targeted). There must be a result that can be measured and a time limit.
